INTERNSHIP

Asiana Times   Online
WordPress Developer (Full-time)   *Oct 2021 - Nov 2021*

- **Improving SEO**: Using various Optimization techniques, I improved article quality and rankings.
- **External SEO**: To improve external SEO of the website talked to the CEO, used techniques like backlinking, much more to get results.
- **Content Writing**: I wrote content for the website, and improved SERP ranking.

PROJECTS

- **Yajra – A Cryptocurrency Website (Working with API)**: Yajra is a **ReactJs** website that uses the CoinRanking API & Bing News Search API. Users can search for a coin listed in the page. It shows the market prices, Total cryptocurrencies, etc. You are redirected tothe particular news page after clicking. It emphasizes on the uses of **Hooks, Props, Routing, APIs** and **material-ui**.
- **Salaah (Ongoing Project)**: It is a **patented group project** which is being made for the **college** mentor community. We'reworking to create a professional alumni network using **MERN** stack. I'm working on **ReactJS** with the frontend team that deals with **Props, Hooks, Routing, Chakra-UI**. The project consists of social media like profile, chats and feed interface. Some libraries and technologies being used are **Redux**, **Socket.io**, Multer, Formik

CERTIFICATION AND TRAINING

- **HarvardX – Technology Entrepreneurship:** It was a **bootcamp** organized by **CELP**, that encouraged trainingof how technology is developed and deployed to the market to create value. It helped me learn new techniques that different companies used to improve their value.
- **Frontend Basics**: It was a udemy course which helped me learn basic concepts of web development. Languages like HTML, CSS, JavaScript, etc.
- **Programming with Python**: It was a 3-month long training held by **ABESEC**, in which I got to learn the basic conceptsof Python, **OOPS**, and **Problem Solving**. (Dec 2020 - Feb 2021)

ACHIEVEMENTS

- Selected as a contributor for **GirlScript Winter of Contribution** 2021. I was certified for being an **active contributor** in the technologies like HTML/CSS. (September 2021 - November 2021)
- I published an **article** for **Fitnesstepz (A Healthcare & Fitness Website)**, in which secured **3rd rank** in SERP Ranking above Times of India, and other sites.

EXTRA-CURRICULAR

- **Technical Lead, Salaah The Mentor Community**: I'm leading the technical team of 8 members, in which we're working to create a website for building an Alumni network for the college. We also conduct online and offline technical & soft-skills podcasts impacting over 1000 students of college. (Nov 2021 - Present)
- **Event Organizer of Mega Drive ABESEC 2022**: Organized online mock interviews for the placement preparation of 400 pre-Final year students aiming for Software Companies. (Apr 2022).
- **Treasurer, Cultural Society Abesec**: Lead the cultural society of our college, recruited juniors among 350 students and hosted a successful event Winter Groove, based on cultural activities.
- **Student Affair Committee, 3rd year representative:** Been a 3rd year representative of the student's affair committee in which I have to put the problems of student among Vice-President of college and Officiating Director.   (Apr 2021).
